

# Origami Crane

Start with a square piece of paper.

1. Fold paper in half diagonally.
2. Fold in half again
3. Keeping the right side flat, bring the left corner down to the bottom and flatten as shown to make a square shape. Repeat on other side.
4. Fold the bottom right edge to line up with the center crease of the square and unfold to make a crease. Repeat on left, and fold the top corner to make a third crease as shown. Flip the paper over and do this step again on the other side.
5. Using the creases you made in the last step as a guide, fold the bottom corner up along the horizontal crease, pushing in the sides to flatten to a diamond shape.
6. Fold the bottom right flap up and inside to make the neck of the crane. Repeat on the left side for the tail.
7. Use a similar fold to make the head of the crane.
8. Fold down the "wings" and your crane is finished!
