

# Instructions for Making a No-Sew Superhero Cape from a Tee Shirt

## Supplies:

- Tee Shirt (usually a larger size is better)
- Felt Square
- Fabric Sheers
- Printable Pattern or SVG File
- Fabric Glue
- Stapler (if cutting by hand)

## Cut the tee shirt:

Use the image as a guide. You'll be keeping the neck band of the tee shirt in tact and cutting off the sleeves. Discard front and sleeve.

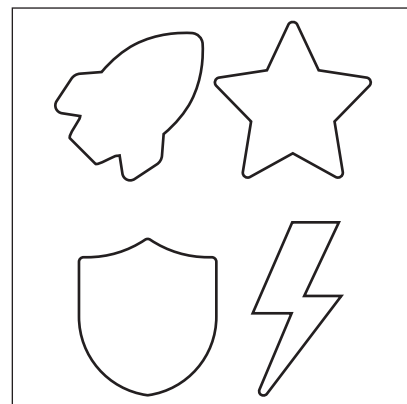

## Cut one of our superhero designs:

To cut by hand, place a printable on the felt square. Staple around the outside of the design. Cut through both the paper and the felt.

## To cut by machine:

Download our SVG file. Size if necessary to 8" high and cut according to machine instructions.

Available Designs Online

Glue to the back of the cape.
